Christopher Nemeth
School of Mathematical Sciences, Lancaster University, Lancaster, LA1 4YF
Email: c.nemeth@lancaster.ac.uk; Website: http://www.lancs.ac.uk/~nemeth/

General Information

Employment History

Professor in Probabilistic Machine Learning, Lancaster University, UK 2022-
Senior Lecturer in Statistics, Lancaster University, UK 2020-2022
Lecturer in Statistics, Lancaster University, UK 2015-2020
STOR-i Impact Fellow, Lancaster University, UK 2014-2015
Industrial Collaboration during PhD, MBDA UK 2011-2014
Graduate Teaching Assistant, Lancaster University 2011-2014
Research Analyst, KSS fuels Jun - Sep 2010

Academic and Professional Qualifications

Ph.D. Statistics and Operational Research, Lancaster University 2011-2014
Thesis: *Parameter estimation for state space models using Sequential Monte Carlo algorithms*
Supervisors: Prof. Paul Fearnhead & Dr. Lyudmila Mihaylova
Examiners: Dr. Sumeetpal Singh & Dr. Gareth Ridall
Viva date: 21st October 2014
MRes. Statistics and Operational Research, Lancaster University 2010-2011
Dissertation: *Sequential Monte Carlo filtering for target tracking applications*
BSc. Mathematics, University of Manchester 2003-2006

Research and Scholarly Work

Research Interests

My research is in the areas of computational statistics and probabilistic machine learning, specifically Markov chain Monte Carlo, sequential Monte Carlo, Gaussian processes and statistical network analysis. Currently, my research is focused on problems related to the intersection between optimisation and sampling algorithms, as well as the development of new GenAI tools related to diffusion models and flow matching frameworks. My research has impact in a variety of application areas including, target tracking, econometrics and environmental data science.

Research Funding

Principal Investigator:

- *EP/V022636/1: Probabilistic Algorithms for Scalable and Computable Approaches to Learning (PASCAL)* - UKRI-EPSRC Turing AI Acceleration Fellowship (£**1,097,295**) 2021-2026
- *Bayesian inverse modelling and data assimilation of atmospheric emissions* - Contribution towards PhD studentship funded by Shell (£**35,000**) 2022-2025
- *Diffusion-based deep generative models* - Contribution towards PhD studentship funded by Microsoft Research (£**40,000**) 2022-2026
- *EP/V033980/1: EPSRC Core Equipment* - Graphical Processing Units (£**233,413**) 2020-2022
- *NE/T004002/1: Explainable AI for UK agricultural land use decision-making* - NERC Landscape decision-making (£**43,151**) 2019-2020
- *Statistical analysis of large-scale hypergraph data* - Contribution towards PhD studentship funded by GCHQ (£**30,000**) 2019-2022
- *Learning to group research profiles through online academic services* - Contribution towards PhD studentship funded by Elsevier (£**30,000**) 2019-2022
- *EP/S00159X/1: Scalable and Exact Data Science for Security and Location-based Data* - UKRI-EPSRC Innovation Fellowship (£**523,575**) 2018-2021

- *DSI: Bayesian Latent Space Modelling for Chemical Interactions* - Lubrizol-funded research project (£**4,700**) 2018

Co-Investigator:

- *EP/Y028783/1: ProbAI: A Hub for the Mathematical and Computational Foundations of Probabilistic AI* - EPSRC (£**8,576,838**) 2024-2029
- *NE/T012307/1: Detecting soil degradation and restoration through a novel coupled sensor and machine learning framework* - NERC Signals in the Soil (£**811,651**) 2020-2022
- *Optimising in-store price reductions through markdowns* - Contribution towards PhD studentship funded by Tesco (£**116,000**) 2021-2024
- *EP/R01860X/1: Data Science of the Natural Environment* - EPSRC New approaches to Data Science (£**2,656,400**) 2018-2023

Invited Research Presentations

- Tutorial - Greek Stochastics, Zakynthos — Jul 2026
- Keynote - SAMBa Summer Conference, University of Bath — Jul 2026
- Seminar - Statistics and Data Science, University of Birmingham — Feb 2026
- Seminar - SQUIDS, University of Manchester — Feb 2026
- Seminar - Department of Statistics, University College London — Jan 2026
- Tutorial - Fundamentals of AI CDT, University of Oxford — Nov 2025
- Tutorial - Ellis School on Probabilistic Machine Learning, University of Cambridge — Jul 2025
- Workshop - AI in Adaptive Environmental Decision-Making, Lancaster Castle — Jun 2025
- Seminar - Department of Statistics, University of Warwick — Feb 2025
- Conference - International Society of Bayesian Analysis, Venice — Jul 2024
- Seminar - ProbAI Hub, Online seminar series — Jun 2024
- Seminar - Integreat Research Centre, University of Oslo — Mar 2024
- Seminar - Department of Mathematics, University of Edinburgh — Oct 2023

- Workshop - Turing AI Fellows Retreat, Natural History Museum, London May 2023
- Workshop - Bayes4Health & CoSinES, Oxford University Apr 2023
- Seminar - SecondMind Feb 2023
- Seminar - Department of Mathematics, Imperial College London Nov 2022
- Conference - International Society of Bayesian Analysis, Montreal Jun 2022
- Seminar - Department of Mathematics, University of Leeds Apr 2022
- Workshop - EPSRC AI retreat Mar 2022
- Workshop - Stein's method, Royal Statistical Society Dec 2021
- Seminar - Department of Mathematics and Statistics, University of Nottingham Mar 2020
- Seminar - Statistics, quantification of uncertainty, inverse problems and data science (SQUIDS), University of Manchester Oct 2019
- Seminar - Department of Statistics, University of Oxford Jun 2019
- Seminar - Department of Mathematics, University of Oslo, Norway Dec 2018
- Workshop - An afternoon of Bayesian computation, Reading University Oct 2018
- Seminar - Department of Decision Sciences, Boconni University, Milan, Italy Oct 2018
- Workshop - Surrogate Modelling and Emulation, Lancaster University Jul 2018
- Seminar - Maths of Real-World Systems CDT, Warwick University Apr 2018
- Conference - BayesComp, Barcelona, Spain Mar 2018
- Seminar - Department of Computer Science, University of Washington, USA Feb 2018
- Seminar - Data Science Institute, Lancaster University Jun 2017
- Seminar - Department of Statistics, University of Warwick Jun 2017
- Seminar - School of Mathematics and Statistics, University of Glasgow Nov 2016
- Conference - Royal Statistical Society, Manchester Sep 2016

- Seminar - Institute of Mathematics and its Applications, Lancaster Feb 2012

Teaching Experience

Teaching Qualifications

Postgraduate Certificate of Academic Practice: Module 2. 2017
Postgraduate Certificate of Academic Practice: Module 1. Including HEA fellow status. 2016

Courses Taught

I have previously taught the following modules:

- *MATH454/554/654: Computationally intensive methods*
- *SCC461: Programming for data scientists*
- *MATH555: Bayesian inference for data science*
- *MATH550: Statistics in Practice*

Academic Supervision

Postdoctoral research associates:

- **Liam Llamazares-Elias** - *Wassertein Gradient Flows for Machine Learning* 2025-
- **Anthony Stephenson** - *Generative modelling for graph generation* 2025-
- **Louis Sharrock** - *Tuning free approaches to Bayesian sampling* 2022-2024
- **Estevao Prado** - *Bayesian Additive Regression Trees* 2022-2024
- **Kathryn Turnbull** - *Statistical network modelling*. 2021-2022
- **Jeremie Coullon** - *Adaptive stochastic gradient MCMC*. 2020-2022
- **Mengyi Gong** - *Machine learning for soil modelling*. 2020-
- **Hongyan Chen** - *Explainable AI for UK agricultural land use decision-making*. 2019-2021
- **Leah South** - *Scalable data science for security and location-based data.* 2019-2020

- **Qingying Shu** - *Machine learning approaches to identify melt regions on the Greenland ice sheet from backscatter images*. 2019-2022
- **Oluwole Oyebamiji** - *Spatial modelling and statistical downscaling of ozone data.* 2018-2021

PhD students:

- **Abiel Talwar** - *Diffusion Models and Guidance*. 2025-
- **Andreas Makris** - *Diffusion generative models for inpainting*. 2024-
- **Francesco Barille** (visiting student) - *Exact and Scalable Inference with the Cox-Ingersoll-Ross Model.* 2023-2024
- **Dan Dodd** - *Learning-rate-free algorithms for sampling and optimisation.* 2023-2025
- **Connie Trojan** - *Diffusion-based Deep Generative Models for Large Language Models*. 2022-
- **Thomas Newman** - *Bayesian inverse modelling and data assimilation of atmospheric emissions*. 2022-
- **Katie Howgate** - *In-store price optimisation*. 2021-
- **Alberto Cabezas Gonzalez** - *Contributions to Bayesian Statistics*. 2020-2024
- **Thomas Pinder** - *Scalable Gaussian processes for modelling air quality data*. 2019-2022
- **Rachael Duncan** - *Data science approaches to projecting future global-to-local air quality and climate*. 2019-2023
- **George Bolt** - *Statistical Methods for Samples of Interaction Networks*. 2019-2023
- **Srshti Putcha** - *Scalable Monte Carlo in the general Big Data setting.* 2018-2022
- **Callum Vyner** - *Parallel Monte Carlo methods for Big Data.* 2016-2022
- **Kathryn Turnbull** - *Advancements in Latent Space Network Modelling*. 2016-2019
- **Jack Baker** - *Stochastic gradient algorithms for scalable Markov chain Monte Carlo.* 2015-2019

Master's students:

- **Luke Lorenzi** - *Econometric modelling of integer time-series data*. 2018
- **Konstantinos Mylonas** - *Machine learning for delivery time prediction*. 2017
- **Sonia Aden Ahmed** - *Produce the next iteration of a machine learning responsible gambling model*. 2016

PhD Theses Examined
External:

- **Jen Nig Lim** - *Particle Algorithms for Inference of Probabilistic Models*. University of Warwick, U.K. 2025
- **Chengkun Li** - *Surrogate-based methods for efficient Bayesian posterior computation*. University of Helsinki, Finland. 2025
- **Louis Grenioux** - *Interactions and opportunities at the crossroads of deep probabilistic modelling and statistical inference through Markov Chains Monte Carlo*. Institut Polytechnique de Paris, France. 2025
- **Anthony Stephenson** - *Fast Gaussian Process Regression at Extreme Scale*. University of Bristol, U.K. 2024
- **Leonardo Ripoli** - *Sequential Monte Carlo methods in Phylogenetics and Active Subspaces*. University of Reading, U.K. 2024
- **Kjartan Kloster Osmundsen** - *Essays in Statistics and Econometrics*. University of Stravanger, Norway. 2020
